O R D E R

NOW, TO WIT, this 7th day of January, 1970 it is hereby ordered:

1. Industrial Waste Permit No. 3681006, issued June 7, 1968 to the Hammermill Paper Company, and modified February 25, 1969, is further modified effective immediately so as to require the submission of a plan to prevent accidental discharges of polluting materials. The plan shall consider the consequences of and provide for the prevention of accidental discharges that might occur during the transport, storage and processing of raw materials and intermediate and finished products. The storage and disposal of all solid and liquid waste materials shall be considered in the plan, as well as accidents that may be caused by power failures, floods, or vandalism. The breakdown of treatment plant equipment and other incidents of human failure, facilities failure, and operational failure shall also be considered.
2. The permittee shall submit the plan to the Board for approval within one hundred eighty (180) days of receipt of this order.
3. The permittee may request a hearing on this order by submitting a written request to the Secretary of the Sanitary Water Board within twenty (20) days of receipt of this order.

INDUSTRIAL WASTES PERMIT  
3681006

The Sanitary Water Board, which by virtue of the Act of April 9, 1929, P. L. 177, known as The Administrative Code of 1929, and the amendments thereto, and of the Act of June 22, 1937, P. L. 1987, as amended by the Act of May 8, 1945, P. L. 435, is empowered to exercise certain powers and perform certain duties "To preserve and improve the purity of the waters of the Commonwealth for the protection of public health, animal and aquatic life, and for industrial consumption, and recreation; \*\*\*\*", hereby issues this permit to the Hammermill Paper Company, Erie, Pennsylvania, for the construction of waste treatment facilities for its pulp and paper mill located in Erie, Erie County, and discharge therefrom to the deep underground as described in a report accompanying application No. 3681006.

This permit is subject to the following special conditions:

- A. Extreme care shall be exercised in the handling of all raw, finished and waste materials to prevent spills or unusual discharges to waters of the Commonwealth.

AR101932

PERMIT

B. The permittee shall provide means for measuring and recording the volume of waste water disposed of daily.

C. Approval of plans refers to waste treatment and not structural stability, which is assumed to sound and in accordance with good structural design. Failure, because of faulty structural design or poor construction, of the works herein approved will render the permit void.

D. No radical changes shall be made in the works herein approved unless the permittee shall first submit to the Sanitary Water Board plans and report setting forth the proposed changes, and receive written approval thereon. No construction shall be undertaken without such approval.

E. The approval herein granted is predicated upon the claims made by the permittee's designing engineers in the data supporting the application as to the containment of the wastes in the strata specified. Should the wastes migrate from the specified strata, the permittee, upon notice from the Board, shall cease the operation of this waste disposal facility.

F. The discharge of untreated or improperly treated industrial wastes to the waters of the Commonwealth is contrary to the requirements of the Sanitary Water Board. If, because of accidental breakdown of the treatment works or plant equipment or for other reason, any such discharge should occur, then the operation of the mill or process producing such discharge shall be discontinued until repairs to the treatment works or other satisfactory measures to prevent stream pollution shall have been completed.

AR101933

-3-

This permit is also subject to the following STANDARD CONDITIONS RELATING  
TO INDUSTRIAL WASTES effective January 1, 1941, attached hereto:

1, 2, 3, 6, 7, 8, 10, 13, 14, & 17.

Attention: Mr. Richard L. Brown, Assistant Vice-President  
SUBJECT: Industrial Wastes Permit No. 3681006

Gentlemen:

The enclosed permit has been issued pursuant to action taken by the Department of Health between sessions of the Sanitary Water Board. Under the provisions of Section 2109 of the Administrative Code of 1929 such action may be rescinded or revoked by the Board at its next session on June 19 - 20, 1968. If the Board rescinds or revokes the permit, or takes any other action affecting it, you will be notified.

We believe the permit is self-explanatory. It should be carefully studied and if any conditions are not clear, please contact this office.

Very truly yours,

WCH:au
